WELCOME TO ACCELERO BIOANALYTICS YOUR ANALYTICAL PARTNER FOR

- Non-clinical drug development
- Clinical drug development
- Independent contract research

Accelero is...

- GLP certified
- ICH GCP compliant
- Approved as BSL-2 laboratory for microbiology and genetic engineering
- Registered for the import of animal products from non-EU origins

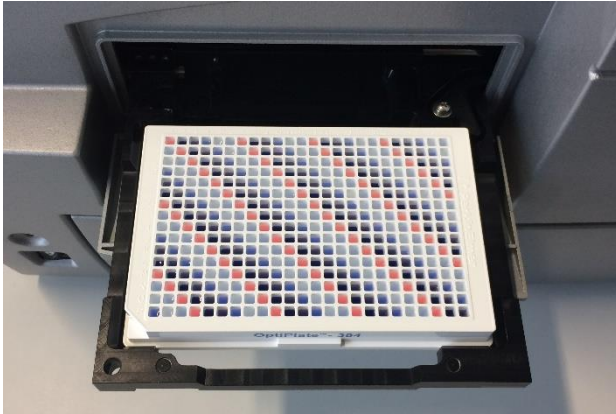

Accelero provides ...

- ELISA
- qPCR and RTqPCR
- Flow cytometry
- Microarray biomarker screening
- Cell culture & microbiology
- Bioanalytical consulting
- GLP training program

Accelero applies for ...

- Pharmacokinetics & Toxicokinetics
- Formulation analysis
- ATMP Biodistribution
- Pharmacodynamics
- Biomarker research
- Cell-based assays
- Cloning and gene expression

BIOANALYTICAL SERVICES

ELISA - Hybridization assays - bDNA assays
 Bead-based assays – AlphaLISA - Multiplex
 qPCR, single- and multiplex
 RTqPCR gene expression, immuno PCR
 Microbial & mammalian cell culture
 Biomarker proteome screening
 Flow cytometry, cytotoxicity assays
 DNA, RNA and protein isolation
 Gel electrophoresis, Western blot
 Nanocarrier & formulation analysis
 PK/TK modelling e.g. using WinNonlin

© 2016 Accelero Bioanalytics GmbH.

CONSULTING SERVICES

Assay development & validation consulting
 GLP seminars
 GLP basic courses
 GLP talk – for advanced
 GLP In-house trainings at your site
 Preparation for GLP audits or inspections

FOUR REASONS TO CONTRACT ACCELERO

1. Create a direct line to the lab bench!

Small company with cooperative communication model.
 Short communication paths.
 Contact your study director directly.
 Team members with academic background, no technicians.

2. Accelerate your drug development!

Fast turnaround times from cost proposal to final report.
 Short response times at all stages of your project.

3. Accelero goes easy with your budget!

No superfluous project management involved.
 No extraordinary large facilities, no conference rooms.
 No extra audit charges.

4. Benefit from Accelero's experience!

RNA and DNA therapeutics from non-clinical to phase 2:
 aptamers, oligos, siRNA, poly IC, antagomirs,
 Human stem cell based ATMP
 Adenovirus derived vectors
 Pneumonia-associated microbiology
 Validated assays according to EMA and FDA guidelines

COMPANY HISTORY

- 2011 Funding of a limited liability company.
- 2014 First successful crowdlending campaign.
- 2015 Establishing new test facility in February.
- 2015 Approval for GLP compliance in October.
- 2016 Launching GLP training & consulting services in February.
- 2016 5th Anniversary of Accelero Bioanalytics GmbH in December.
