

Accelerero is the No. 1 for Regulatory ATMP Development in the German Capital Region

Accelerero Bioanalytics GmbH is a privately funded, sustainably growing biotechnology team offering bioanalytical contract research for innovative biotech and pharmaceutical customers. Accelerero supports the drug development of its internationally active clients from the pre-clinical stage to clinical development.

Accelerero's biosafety level S2 laboratories in Berlin Adlershof are certified according to the principles of Good Laboratory Practice (GLP) and operate in compliance with ICH Good Clinical Practice (GCP). Accelerero serves its clients with GLP seminars, training courses, and audits.

For the continuously growing number of exciting research projects, we are seeking technical support in our GLP test facility in Berlin Adlershof.

Accelerero would like to invite you to become our next ...

GLP LABORATORY TEAM MEMBER (male / female)

Reference #00017

To work with Accelerero means ...

- GLP Participation in different kinds of biopharmaceutical projects;
- GLP Direct communication to Accelerero's international clients;
- GLP Microbiology, cell culture, genetic engineering, molecular biology;
- GLP PCR, ELISA, FACS, EliSpot, Multiplex Immunoassays;
- GLP Participation in client audits as well as authority inspections;

Accelerero would also need support in ...

- GLP Taking responsibility for the general laboratory organization and equipment;
- GLP Documentation of goods receipt, inventory control, sample receipt, and storage;
- GLP Preparation of materials, and reagents;
- GLP The study experiments (sample processing, sample analysis)
- GLP Supervision of maintenance plans for test equipment and analysis systems;

Accelerero stands for ...

- GLP Family-friendly, flexible working without core working hours and time recording;
- GLP A relaxed and pleasant working atmosphere;
- GLP Various customer projects, boredom was yesterday;
- GLP Intensive training in GLP as well as GCP regulations;
- GLP Transparent corporate communication;

The position is also available as part-time, with reduced hours per week;

accelerō bioanalytics

Accelero truly manages to work as a team, we work hand in hand to provide our customers the best possible solutions for their requirements. Accelero is not an ordinary employer and does not encourage hierarchies. We do not need investors to grow fast but create long-term and sustainable job positions by positive cash flow.

You are the ideal Accelero team member, if you ...

-  Can demonstrate experience in cell culture, in the preparation of nucleic acids from biological samples of any kind, or in microbiology;
-  Are a medical-technical or biological lab technician, or a laboratory assistant, or you have a Bachelor's or Master's degree in natural sciences.
-  Have an attentive and accurate way of working and enjoy the documentation of your activities.
-  Actively want to participate in Accelero's team activities;
-  Show contribution to the company's business model.
-  Initiate new ideas at all levels, and
-  Prefer to send us a meaningful (and creative) application, no boring novels and university certificates;

Peer-reviewed expertise in genetic engineering is a plus.

Would you like to join our team?

You are welcome to send your application via email to seidabei@accelero-bioanalytics.com.

We are looking forward to meeting you soon!
